This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE STATE OF NEW HAMPSHIRE

Paid a commendable tribute to the memory of the brave men, living or dead, who represented the State in the Civil War, by appropriating thirty-two thousand, four hundred dollars, to prepare and print two thousand volumes of the "Revised Register of the Soldiers and Sailors of New Hampshire in the War of the Rebellion, 1861-'66, Prepared and Published by Authority of the Legislature, by Augustus D. Ayling, Adjutant-General."

One city and several towns have published the record containing the names of the men who represented them. The main object in the publication of this small book, too long delayed since the close of the war, is to furnish the people of Manchester with an alphabetically arranged record, copied from General Ayling's Register, for easy reference to the pages as indicated, for all the particulars regarding the men who represented this city in the Civil War.

WAR BEGUN.

Sumter Attacked!

[Special Dispatch to the Daily Mirror.]

BOSTON, Apr. 13.

Fighting commenced at Charleston yesterday. Seven batteries played on Sumter all day, and Anderson replied. Rumored, portions of the Fort destroyed. Two Confederate troops wounded. Bombardment be resumed to-day.

LATER.

CHARLESTON, April 12. War is inaugurated. The batteries on Sullivan's Island, Morris Island, at other points opened on Ft. Sumter at 4 o'clock this morning. Fort Sumter has returned the fire and a brisk cannonading has been kept up—no information has been received from the seaboard yet. The military are under arms and the whole populace on the street.

STILL LATER.

The firing has continued all day uninterruptedly. Two of the Ft. Sumter guns have been silenced, and it is reported that a breach has been made in the south-east wall. The answer to Gen. Beauregard's demand by Maj. Anderson was that he would surrender when his supplies were exhausted, if he was not reinforced.

Not a casualty has yet happened to any of the force of 19 batteries—only 7 had yet been opened on Sumter. The remainder are held in reserve for the expected fleet.—2000 men reached the city this morning and embarked for Morris Island.

The firing has ceased for the night to be resumed at daylight in the morning, unless an attempt is made to reinforce Fort Sumter, to repel which ample arrangements have been made. Only two men were wounded to-day.

The Pawnee, Harriet Lane and another steamer are reported off the bar. April 13, 12:30. It is impossible to reinforce Fort Sumter to-night as a storm is raging. The mortar battery will be playing on Fort Sumter all night.
